

Do you (or the person you care for) have a chronic physical condition or age-related difficulties with day-to-day life?

If so, we want to hear from you

Your local Healthwatch organisations are independent charities with a statutory role. We are listening to people and their carers about their experiences and attitudes about a **new NHS service that helps keeps people out of hospital**. Your voice can have a real impact in the design and delivery of this new service locally. We are talking to people who live in Croydon, Merton, and Wandsworth.

Please email Iyinoluwa Oshinowo, South West London Healthwatch Engagement Coordinator, at:

iyinoluwa@swlhealthwatch.org.uk

or call 07342 309957

to schedule a time to speak.
