

Would you like to receive a £30 voucher for helping the NHS and your local community by sharing your views about the Covid-19 vaccination for children aged 5-11?

Your feedback will help us to shape our approach and give you best information about the Covid-19 vaccine.

Are you:

- a parent, carer or guardian of a 5-11 year old child?
 - living in Kingston, Richmond, Merton, Wandsworth, Croydon or Sutton?
- If yes, we'd love to hear from you

◆ Join a focus group with a local healthcare professional to share your views and ask questions about the covid-19 vaccination. Taking place on Microsoft teams on:

- Monday 21st March, 7-8pm, for parents of children aged 5-7
- Thursday 24th March, 4-5pm, for parents of children aged 8-11
- Tuesday 29th March, 10-11am, for parents of 5-11 year olds who have a health condition or disability that could affect their immunity.

If you are unable to access Microsoft Teams, or cannot make the times suggested and would like to be involved, please get in touch using the email below to discuss the best way to share your input.

To book your place and for more information email
SWLVaccineCommunicationsandEngagement@swlondon.nhs.uk
or call 020 3922 1498

As a thank you for taking part we will be offering a £30 shopping voucher.

◆ If you are not able to join the discussion you can still share your views with us by completing the survey below. The survey takes about 7 minutes to complete. At the end of the survey, there is an opportunity to enter a prize draw to win a £100 voucher.

<https://www.surveymonkey.co.uk/r/under18surveyLIVE>

Why should I get involved?

- your views will help us to share information about the Covid-19 vaccination with our community.
your views will also help us to understand where you would prefer to be vaccinated, and how we can support you to make an informed decision about vaccinating your child.
- you will have the chance to ask a questions to a local clinician about the Covid-19 vaccination.

How will your feedback help us? Your feedback will help ensure that you have the best information about the childhood Covid-19 vaccination so that you can make an informed decision.
